

In the Claims

Please amend claim 1 in accordance with 37 C.F.R. 1.121 to the clean version shown below. A marked up version showing the details of the changes is presented in Appendix A.

Clean Version of Claims as Amended

- Sub B
- A1
1. (Amended) A method for printing an indicia on a label in a system for printing one or more labels comprising the steps of:
- (a) reading a label configuration file wherein said label configuration file is indicative of one or more label stocks;
 - (b) selecting a label stock;
 - (c) reading a definition file associated with said selected label stock;
 - (d) selecting an amount of labels to be printed;
 - (e) printing said amount of labels in accordance with said definition file such that a label pair comprising a destination address label having a destination address and a corresponding indicia label having an indicia is printed, wherein said corresponding indicia further comprises a destination barcode; and
 - (f) tagging said label pair with a unique identifying mark.
